

Left: Flora in Davos, Switzerland. Right: Jenny with collaborators from the Universities of Münster, Germany, and Rabat, Morocco.

On the road again...

'Tis the season for conferences, workshops, summer schools, and field work, and C2P has once again been a strong presence on the scene. Flora took part in a TopoEurope workshop in Davos; Zonghai attended a summer school and symposium on the 'Boundary-Element Method' in Brescia, Italy; the busiest ESR was Anna: she's doing a Magnetohydrodynamics course at UPsud11, a DaVIS PIV seminar in Göttingen, and is attending a workshop in Rio on "Viscoplastic Fluids: From Theory to Application".

Erwin recently spent 3 months in Montpellier to collaborate with fellow C2P members there and conduct more EBSD, LA-ICPMS, and EPMA analyses.

« C2P has once again been a strong presence on the scene »

Jenny has returned to Morocco to service the network of seismic stations there in collaboration with the Universities of Rabat and Münster (www1.gly.bris.ac.uk/CoMITAC/morocco.htm).

Coming up soon: 3rd C2P Workshop in Bristol

Only two months left till the next C2P workshop, which will be held in Bristol from 18th-21st January. Preparations are underway. The C2P fellows are already bouncing ideas back and forth regarding the agenda of the meeting. Suggestions of Pls are, however, also welcome!

The conference venue will be Clifton Hill House near the Bristol School of Earth Sciences. The workshop will include an away day as well as the opportunity to meet some of our industry partners. Details to follow soon.

Clifton Hill House, Bristol.

Editorial

Already our 4th newsletter! The Crystal2Plate network has clearly reached maturity. Our young C2P researchers are buzzing worldwide with activity. They have been presenting their results in a large number of scientific meetings, doing field work, and, perhaps a less visible but not least important task, working very hard to write articles on their C2P projects! We also have other reasons to celebrate. First, we welcome a new VERY Early Stage researcher: little Marla who was born this summer. Congratulations to Sonja! Second: Hats up to Mike for his election as an AGU Fellow! The upcoming C2P workshop in Bristol will be the perfect occasion to commemorate both events, in addition to, of course, meeting industry people and having lively discussions about our on-going research. See you all in Bristol next January!!

Andréa Tommasi,
Scientific Coordinator

- On the road again: C2P fellows at conferences/workshops/on field work
- Coming up soon: 3rd C2P Workshop in Bristol
- Are you going to San Francisco?
- Please welcome ESR11!

Are you going to San Francisco?

The annual AGU Fall Meeting in San Francisco is the world's largest Earth and Planetary Science conference with nearly 20000 attendees every year. C2P will be a force to be reckoned with at this year's meeting, which will take place from 5th-9th December: ESRs Anna, Diana, Flora, Jenny, Tobi, Roberto, and Zonghai, as well as several C2P Pls, will be presenting their work.

Congratulations to Prof. Mike Kendall. Mike has been elected an AGU Fellow. Only less than 0.1% of all AGU members receive this special honour every year.

Please welcome ESR11

A new C2P fellow has recently joined our ranks: On July 19th, Sonja Greve gave birth to little Marla. CONGRATULATIONS! Hopefully Marla will follow in her mother's footsteps!
